

Answers to Questions from P2.1

Name: Simon Dunkley

Student ID: 1628623

- Is the font type in helloworld2.html similar to helloworld.html?

The font type is different to helloworld.html due to the bootstrap stylesheet

- What is the purpose of `<div class="container"></div>`?

The purpose is to contain all the row elements to get the stylesheet from bootstrap. without container you will get a full width non responsive layout.

- Explain briefly why the `<script ...></script>` elements are placed toward the end of the html code?

The `<script ...></script>` elements are placed towards the end of the html code, to ensure the pages content is loaded first and once the page has finished the scripts will apply their manipulation to the page after.
